

Modern Slavery Act

Whilst not subject to the requirements in the Modern Slavery Act 2015, Saranac Partners acknowledges the impact that modern slavery has globally as an international crime impacting over 40 million people. Our values, embedded throughout our business and key to our client relationships mean that we strive to treat everyone fairly and equitably. We are committed to ensuring that there is no modern slavery in our supply chains or any part of our business. To ensure a high level of understanding of the risks of modern slavery we provide relevant training to our staff.
